Craig & Karl

@craigandkarl

Unfortunately their piece got lost in transit and wasn't able to be showcased in the exhibition. We really appreciate their efforts.

An Ode to Me, My Beard and I

by Mulga

There's a mask I wear each and every day
It's a hairy thing and it's black and gray

It keeps my face warm when the temps are cold
But one downside is it makes me look a little old

It's alive like an animal with a mind of its own
Especially when the south winds start to blow

When its time to think it comes alive
The ideas percolate when I stroke its hide

It gives me magical powers and extra strength
And these just increase as it grows in length

It's pretty darn wild and not very neat
But you gotta know that this beard is pretty sweet

The End

All Papershine artworks are made from a combination of mixed media paper, adhesives, paint and twine. Sizes variable. All works are original. Pricing is listed in AUD inc gst.
